Professional Experience

UX/UI Designer | Unexus Medical Solutions Inc.

October 2022 - Present

- Led the end-to-end UI/UX design for MedAlert eRx, a multi-user e-prescription platform, creating distinct and efficient workflows for Doctors, Call Center staff, and Pharmacy Branches.
- Conceptualized and designed a digital Specimen Tracking System about to be used by 7 regional centers and over 1,000 facilities to replace legacy manual processes.
- Redesigned and digitized core processes for the Newborn Screening Resource Center by creating a new Online Record System and G6PD platform, improving data management and accessibility.

Co-Founder & Chief Executive Officer | Akads Learning Inc.

January 2021 - May 2023

- Co-founded and scaled an online platform connecting K-12 students with university tutors, overseeing all operations from user acquisition to product development.
- Directed the company's strategy and vision, leading to its recognition as a Top 5 Finalist in the Accenture PROGRAM THE FUTURE 2020 and incubation in the QBO INQBATION 2020 program.
- Conducted extensive user interviews and research to inform the product roadmap, guide feature prioritization, and ensure a user-centered design approach.

Co-Founder & Chief Operating Officer | Akads Learning Inc.

September 2019 - December 2020

- Managed tutor and tutee acquisition strategies, growing the user base to over 500+ users in the first year.
- Developed the initial front-end prototype of the Akads website using HTML and CSS to secure early user feedback and validate the concept.

Co-Owner & Chief Marketing Officer | Crunchy Crumble Food Stall

June 2019 - March 2020

- Co-owned and managed a food stall, overseeing daily operations, inventory, and finances.
- Designed and produced all promotional and marketing materials, contributing to brand awareness and driving sales.

Freelance Work

SJ Columbarium Sales Administrative System

June 2025 - December 2025

- Designed and built a custom Excel-based Sales Administrative System (VBA/Macros) to manage the reservation and sales process for 3,000+ columbarium niches, replacing a fully manual, paper-based workflow.
- Architected a linked, guided workflow between sales and inventory data to prevent duplicate bookings and data-entry errors, validating each feature through iterative testing with the client before handoff for implementation.
